Make Your Own Chai

Winter is the perfect time to try out new recipes for warm and toasty beverages! OISS staffer, Nathan, is an expert Chai maker and used to make the staff a cup of chai occasionally when we were in the office - we sure do miss that.

Nathan has kindly put together a step-by-step guide [1] to teach us all how to make our own chai!

Follow his easy recipe [1] and send us photos [2] of your finished products and the spice combinations you used so we can share them out on Instagram.

Stay warm this winter!
