All graduate and professional international students who arrive to the U.S. after the start of classes and did not attend an orientation for students in the U.S. must attend an OISS post-arrival orientation.

In this orientation session, we will cover all of the necessary steps to maintaining your U.S. immigration status, and go over important next steps for you to take so that we can register your SEVIS record.

Please sign up for the one orientation session that is closest to your arrival date in the United States. We look forward to seeing you there!

Register to receive the Zoom instructions.

P.S. Please be camera-ready for this orientation!
