OISS Public Health Orientation for International Students

Thursday, July 1, 2021 - 8:00am to 9:30am
    New Haven , CT

All new international students are asked to participate in the Office of International Students and Scholars Virtual Orientation. We will present important updates on immigration regulations and go over the steps to maintaining your status once you're in the United States. Finally, you'll have the opportunity to meet your fellow international peers and ask questions directly to the OISS staff. We look forward to seeing you there! P.S. Please be camera-ready for this orientation. We ask that you have your cameras on throughout the session to help with engagement and to fully participate in the activities we have planned.
