Join us for our next OISS Zoom Room for a conversation with Yale Health. This session is aimed at Yale Students who are on the student health plan at Yale Health and currently in the United States. Representatives from Yale Health will give an overview of how they've had to pivot their work due to COVID-19 and remind you of the services you have access to. This is a great opportunity to get your questions answered about your healthcare in the U.S. so please come with your questions!

As a reminder, this series of programs will take place throughout the year with the goal of offering a safe and informal space for you to engage in Q&A with different campus resources, and learn a little bit more about what they do and how you can access them.

OISS Zoom Rooms are an excellent opportunity to not only connect with campus leaders and resources, but to also meet fellow international students and scholars and grow your community on campus. We hope to see you there!

This session is open to the Yale community, and we encourage you to come with your questions and willingness to engage!

Please register to receive the Zoom instructions.
