Halloween is just around the corner, and that means it's pumpkin carving season in the States! Join us for a special workshop for VARs and Student Interns at Yale, where we will teach you how to carve your very own Jack O’ Lantern. The workshop will be led by our OISS Pumpkin Carving expert, Sarah Solarski, who’s won multiple pumpkin carving competitions in Guilford, CT throughout the years! The ticket price includes your own pumpkin, carving tools, fall treats, and endless amounts of spookiness and fun! We hope to see you there.

Note: Tickets are limited and registration is required. No refunds will be issued once tickets are purchased. This is a 18+ event open to adults only.
