Car Ownership

**Buying a Car**

If you purchase a car in Connecticut, you are **required** to register the car with the Department of Motor Vehicles (DMV). You **must have** a CT driver's license or a CT state ID card in order to register your car.

**Financing a Car and Auto Insurance**

Most people do not have the ability to purchase a car in cash, so financing (taking a loan out for purchasing) a car may be necessary. Proof of auto insurance is required in order to purchase a vehicle in CT. There are a few **minimum requirements for insurance** [2] that you should be aware of as well.

While a **Social Security Number** [3] is not required to purchase a car, it may be required in order to finance one or obtain auto insurance. In some cases you may be able to obtain a loan and auto insurance with just a student visa. We recommend you contact potential lenders and auto insurers to determine their requirements before looking for a car to purchase.

**Finding a Car to Purchase**

Many used cars for sale privately can be found through bulletin board notices posted around campus, on search websites such as **AutoList** [4], on classified websites such as **Craigslist** [5], and using other online services. Other resources include local publications such as **The New Haven Register** [6]. Car dealerships will also sell used cars and new ones.

Cost analysis can be done online through **Kelly’s Blue Book** [7] and **Edmunds** [8]. Private Party Value is what you can expect to pay if you buy from an individual. Suggested Retail is the price you would pay if you purchase from a car dealer.

Check any used car thoroughly before you buy. Always test drive the vehicle and take it to a professional mechanic for a pre-purchase check. **Carfax** [9] is an online vehicle history check that can provide useful pre-purchase information as well.

**Maintenance**

Finding a good mechanic is a must for a car owner. For major repairs, you should always shop around. In addition to the listings here, you can ask for recommendations from your friends and colleagues. If you are a member of **AAA** [10] (American Automobile Association), you can get a list of AAA approved garages. There are also car dealers and national chains, such as **Firestone** [11], **Meineke** [12] and **Midas** [13] where you can get car care services; watch for specials and coupons. National chains sometimes offer deals on routine repairs such as mufflers and brakes.
Registration

Valid insurance is required in order to register a vehicle.

Shop around and compare prices. It may be helpful to have a copy of your driving record from home.

Dealership Car Sales

If you purchase a new or used car through an authorized dealer, they will walk you through the steps to register the car.

Private Car Sales

If you purchase the car through a private individual, refer to the Department of Motor Vehicles (DMV) [14] for how to register your car.

Registration and Insurance cards

Always keep the registration and insurance papers in the car, and make a copy of each to keep in a safe place at home.
