Creating a Request in OISS Connect

Selecting the Term

Once you are logged in to start your request, you will be asked to choose the semester or year in which you are making the request (see example A below). This helps us organize your request history.

Note: If you have a summer internship that qualifies for CPT, you would choose 'Summer, 2020'.

Some requests are available for you to make at any time of year. They will be identified as 'Request, 2019' or 'Request, 2020' (see example B below). One example of this type of request would be to add a dependent.

Example A: By Semester
