Updates & Requests for Current Scholars

J-1 Extensions

OISS is implementing a new software program called OISS Connect that will be used by Yale staff members as well as international students and scholars. We are working in stages, and currently we are not processing J-1 extensions in OISS Connect. Please continue to use ISD for any J-1 extension until OISS announces the next stage.

[1]

H-1B Extensions

We are using OISS Connect for H-1B extensions. The first step is to contact your OISS Adviser so that we can review the request. Then if appropriate you will be given access and training in OISS Connect to submit the request.
