

Yale University Sponsorship for O-1

You must be a full-time salaried Yale employee with an academic faculty appointment of Associate Research Scientist or higher, and have 2-3 years of funding to qualify for Yale sponsorship. You should evaluate your eligibility for **O-1 Extraordinary Ability** based on the [USCIS criteria](#) [1] before you request Yale sponsorship.

OISS suggests that you wait and build a good CV with quality publications in high impact journals before applying for sponsorship.

Request University Sponsorship

You must complete a Sponsorship Form which collects key information about your visa status and academic accomplishments. Send the following three files to [Mihwa Lee](#) [2].

- [A completed Yale University Sponsorship Form](#) [3]
- CV
- [Research Statement in the format as specified on the website](#) [4]

Review of the Application Materials

Your application package will be reviewed; your current visa status, expiry date and most importantly your academic credentials will be carefully studied. A meeting will be set up to inform you whether your case for O-1 Sponsorship can be sponsored by Yale.
