Labor Certification Checklist

In order to complete the first stage of the green card, the Labor Certification, the following items must be sent to OISS. With faculty members new to Yale OISS will be working on both an H-1B Temporary Worker visa to get them started at Yale, and at the same time process the green card Labor Certification steps. Because the EB-2 process requires some documents from the department, and others directly from the new faculty member there are two lists below. To see the list of application fees related to the green card please skip to the bottom of this page.

Checklist for Department Administrators

1. New Faculty Hire
   Please inform OISS of any new teaching faculty hire as soon as possible since the is a 18-month deadline. The best practice is to let OISS know as soon as it has been determined that there is an international finalist - even before any offer is extended. This way OISS can manage the process without risk of missing deadlines. Please contact parker.emerson@yale.edu [1].

2. Recruitment Advertisements
   Copy of print advertisements used in the specific recruitment cycle that recruited you to Yale. The journal name and publication date must be visible on all copies. Online advertisements have specific requirements [2].
