
January 20, 2025 EO 14157: Securing The Borders - Ending Humanitarian Parole Programs

January 20, 2025

This EO identifies various actions on certain immigration programs to address securing the U.S. southern border. Many of the announced policies were implemented under the prior Trump administration, including the construction of walls and barriers and the maximal use of resources to prevent unauthorized entries, detain migrants, execute removals, and prosecute those who violate immigration law. This EO also directs DHS to end humanitarian parole programs, including the “Processes for Cubans, Haitians, Nicaraguans, and Venezuelans.”
