Postdoc Buddy Program

The Yale Postdoctoral Association (YPA) now offers a fantastic opportunity for incoming postdocs to be matched with current Yale postdocs already working at Yale before you arrive to New Haven through the Postdoc Buddy Program[1]. Once you are matched with your ‘buddy’, they are there to offer social support by answering questions about Yale, New Haven, their postdoc experience, and their life as part of the university. This four month program usually starts about two months prior to your arrival here at Yale, and continues for two months after you arrive (although the timing is flexible). Learn more about the program [here](https://ypa.yale.edu/buddy) [1] and sign-up to be matched today!

Are you a current postdoc? Sign-up to become a ‘buddy’ and give back to the postdoc community at Yale. [Learn more](https://ypa.yale.edu/buddy) [1].
