March 20th, 2020 - Today the United States Citizenship and Immigration Services (USCIS) announced [1]a suspension of Premium Process (expedited) service for H-1B and green card applications. This will dramatically slow these applications. In some cases it may delay when a new employee may begin work, and for others it may effect international travel. Each case may be different depending on the start date and travel plans. Please [contact your OISS adviser] [2] to discuss details.
