Thankful for our International Community

November 30, 2022

Last week we held an International Friendsgiving Potluck in collaboration with McDougal GSL and the Yale Postdoctoral Affairs Office. This was a wonderful way to gather our international community who had never had the opportunity to experience an American Thanksgiving, and the afternoon allowed us to give thanks for the family we make right here on Yale’s campus.

Everyone was asked to bring a dish to share, and we were so impressed by the incredible food that was provided for the feast! Everyone did a wonderful job at trying out some traditional Thanksgiving dishes or bringing food from their home countries for us to try. See photos from the event on our [Instagram page](https://www.instagram.com/yaleoiss/)!

Thank you to everyone who participated and please know how grateful we are to work with you each and every day! What a wonderful start to the U.S. holiday season.
