On February 18th, 2020 Dr. Paul Genecin, Director of Yale Health, and Donald L. Filer, Associate Vice President for Global Strategy, posted an update message to the Yale community. The message focuses on various issues affected by COVID-19, including:

- Spring break travel safety
- Infection prevention through voluntary self-isolation in the Yale community
- New infection control mandate for people arriving from mainland China
- University preparations for COVID-19
- Information about COVID-19 infection and prevention

Any international students or scholars who have had to change travel plans (either to remain in the U.S. longer, or currently stuck outside of the U.S.) should contact their OISS adviser [3] as well as with their academic advisor or mentor.
