Webinar: Expanding U.S. Based Employment Opportunities for International Students

April 18, 2023

On Thursday, April 20 from 12-1pm, join Sherman Baldwin, the [CEO of LCR Capital Partners](https://www.lcr-capitalpartners.com) and an HBS Alum, as well as Christian Triantaphyllis, an industry leading U.S. based Immigration Attorney, for an online educational session on how the EB-5 Immigrant Investor program leads to permanent residency and can dramatically expand your U.S. based employment opportunities.

There is new U.S. legislation as of 2022 which enables students on F-1 visas in the U.S. to make an investment in an EB-5 project along with a concurrent filing for an Adjustment of Status to gain U.S. employment eligibility within months. Adjustment of Status provides the visa category to work in the U.S., while waiting for a new EB-5 visa designation and the flexibility to work anywhere, which is not the case with H-1B or F-1.
