Whenever you move to a new community, it's important to understand the resources and the rules around sustainability practices. At Yale, we have an [Office of Sustainability](https://sustainability.yale.edu/) which works towards a Yale where sustainability is seamlessly integrated into the scholarship and operations of the university, contributing to its social, environmental, and financial excellence and positioning Yale as a local and global leader.

They have put together some excellent resources for you to learn about the sustainability practices at Yale, the recycling requirements, and additional resources to help you navigate sustainability at Yale.
