Traveling to the U.S.

COVID-Related Entry Requirements
Please refer to Current Travel Guidance [1] for COVID-related entry requirements.

Whether you are traveling to the U.S. for the first time or re-entering, please review the information below carefully. At a minimum, you will need a valid passport, valid visa (except Canadian citizens) and a valid immigration document. Click the box below for details about your specific immigration status. If you have questions or concerns, check with your OISS adviser [2] before you make travel plans. If you had a difficult time entering or re-entering the U.S., please let us know. [3]

You can find detailed information below regarding what documents you need to carry with you, what you need to be aware of when entering the U.S., and what the I-94 record is and why it is important.

Transit Visas When Changing Planes

If your travel plans require a change of planes in a third country, you must check to see if you need a transit visa. Some countries (including the U.S.) require an entry or transit visa, even if you are only changing planes and resuming your travels after a brief time. Before purchasing your ticket, make certain you are aware of any travel requirements or restrictions.
