"In our country and our world today, questions about citizenship and immigration are hotly contested ... but at Yale, we share none of this uncertainty about the critical importance of immigrant and international students and scholars."

Peter Salovey President; and Chris Argyris Professor of Psychology

August 2018

INTRODUCTION

The Office of International Students and Scholars (OISS) is pleased to share its Annual Report for the 2017-2018 academic year. In this report you will find the Fall 2017 International Student Enrollment Report¹ as well as the International Scholar Report² for the academic year. We have combined these two reports, which were previously reported separately, to provide a more comprehensive overview of Yale's international community.

The new U.S. Administration's immediate and unrelenting focus on immigration policy continues to be of concern in the higher education community. Specific points of concern center around direct effects on morale, mobility, and future professional and academic prospects for our international students and scholars; the campus climate, which places high value on a culture of diversity and inclusion; and ultimately the continued flow of international students to the United States. While some U.S. institutions feared that these policies would jeopardize their ability to attract and matriculate international students. Yale has thus far been unaffected. Our number of international students has continued to grow, yet so do the immigration obstacles that cause concern and stress for our students and scholars.

In the last eighteen months, international students, faculty, and staff, both current and prospective, have expressed apprehension about challenges to their legal status, their ability to travel internationally, and their ability to work in the United States on a temporary basis. Yale, through President Salovey and the Yale community, continues to express support for our international students and scholars. The Office of the General Counsel (OGC), OISS, and others have closely followed recent developments in the nation's immigration policies. It has been our priority to communicate and explain these new developments through outreach to students, scholars, faculty, and department liaisons.

Despite the challenging times, OISS has maintained a diverse offering of cultural and social programming and has kept an active social media presence through the OISS website, Facebook, and other media. We have strived and achieved our goal of welcoming each new international student and scholar in person. Over the course of the 2017–2018 academic year, OISS has organized more than 400 programs and events, including numerous outreach events regarding changes in immigration policies and tax filing, as well as the daily English conversation groups and international spouses' programs. Through our Community Connections programs, we have matched 74 individuals with local host families for Thanksgiving dinner and 18 Yale students with local hosts for a dinner during the spring break period, as well as eight students with seniors at the Whitney Center for English conversations. For Yale College, OISS supports first-year international students with an extensive pre-orientation program and a yearlong peer liaison program and assures winter break support for those students who cannot travel home.

I am grateful to the dedicated OISS staff who have worked tirelessly to process countless immigration petitions and notifications, and who have dedicated themselves to responding to and supporting concerns of the Yale international community as they pursue professional and personal aspirations. A special thanks to Erin Gustafson, Sarah Solarski, and Jesse Hirsch for compiling these statistics and to Anton Sovetov, Office of the University Printer, for his outstanding graphic design work for this annual report. If you have any questions, please feel free to get in touch with me.

Ann Kuhlman

Director, Office of International Students and Scholars

 This report includes matriculated students, including non-degree students, who are not U.S. citizens or U.S. permanent residents. Of the 2841 total, 2464 held F-1 student visas and 326 held J-1 student visas.

2. International scholar statistics are compiled at the end of each academic year and represent individuals who have spent some part of the academic year on campus engaged in teaching, research, collaboration, and/or observation. Also included are students from universities outside the United States who come to Yale as visiting student researchers or on established internship programs. Not included in these numbers are individuals who come to Yale in tourist or visitor status.

OISS welcomed over

2100 new students and scholars

in 2017-2018

<image>

INTERNATIONAL STUDENTS

International student enrollment in fall 2017 represents the largest international student enrollment in Yale's history, with 2841 students³ from 121 countries (21.9% of Yale students). The international student enrollment has increased by 57% since fall 2007.

The fall 2017 enrollment represents a 7.8% increase over the fall of 2016. The total student enrollment increased by 4.1%.

More than half the schools showed some increase in their international student enrollments, with the School of Art showing the largest increase—34.6% (from 26 to 35 students). Other schools show some growth:

- 28.6% increase (63 to 81) in the School of Architecture
- 9.4% increase (1146 to 1254) in the Graduate School of Arts and Sciences, including a 5.2% increase in PhD students, 13.2% in master's students, and 31.5% in non-degree students
- 9.4% increase in the School of Management, including 5 students in the new Master of Management Studies in Systemic Risk and a doubling of exchange students from 10 to 20
- 8.9% increase in the School of Public Health (77 to 86)
- 4.4% in Yale College, with the number of students pursuing a bachelor's degree in science increasing by 17.9% over the previous year.

The Yale College Visiting International Student Program (YVISP), a program with five partner institutions,⁴ reached its highest numbers in 2017–2018, welcoming 53 students, 29 of whom were from Yale-NUS and joined Yale students for the spring 2018 semester.

The ten largest country enrollments have remained consistent over the last decade and are very much in line with international student enrollments across the United States. Regionally, the largest increase is in students coming from South Central Asia and East Asia.

The number of Chinese students rose by 15.5% to an all-time high of 786 students.

Nigeria is sending the largest number of students (26) from the African continent (more than double the number of students in the fall of 2015).

The use of post-completion optional practical training (OPT)⁵ decreased slightly (from 615 to 609: 117 students on STEM OPT). However, this slight decrease may reflect the fact that OISS devoted even greater efforts to ensure our OPT student records were accurate. Students on post-completion F-1 OPT remain under Yale's visa sponsorship for the duration of OPT.

3. "Students" include Yale College, and Graduate and Professional students (further in this report referred to as "Graduate").

4. Tecnológico de Monterrey, National University of Singapore, University of Hong Kong, Waseda University, and Yale-NUS.

5. International students in F or J status may remain in the United States under Yale's visa sponsorship after graduation for a temporary period of practical training employment. F-1 students in a STEM field employed by an e-verify employer may extend the OPT period for an additional 24 months (STEM OPT).

INTERNATIONAL STUDENTS IN YALE SUMMER SESSION, 2007–2018

The enrollment numbers reflect international students coming to New Haven to enroll in campusbased summer programs. They do not include those international students who participate in Yale Summer Session programs abroad or in on-line courses. In the summer of 2018, 34 of the 342 students were Yale-NUS students participating in a Grand Strategy Institute.

OPTIONAL PRACTICAL TRAINING, 2007-2017

International students in F or J status may remain in the United States under Yale's visa sponsorship after graduation for a temporary period of practical training employment related to their program of study.

INTERNATIONAL SCHOLARS

The number of international scholars hired and hosted by Yale during the 2017–2018 academic year also hit a new high, 2694 from 93 countries. This represents a 0.4% increase over the previous year. Over the last five years there has been 10% growth in these numbers; a 37% growth over the past decade.

The majority are engaged in the University's research activities, with 39% (1054) holding the title of postdoctoral associate or fellow; 13% (359) postgraduate associates or fellows; and 9% (252) associate research scientists.

Nearly 62% of international scholars are affiliated with the School of Medicine, consistent with previous years.

The top ten sending countries remain the same, as they have for many years, with the number of Chinese scholars dominating the list at a new high of 814. OISS organized 430 programs and events
